

Corinto

CORINTO, diseñada por José Ignacio Ballester es una familia que nos plantea elementos de trazos muy suaves y armoniosos, insinuando formas y siluetas de los primeros formas arquitectónicas simplificándolas al extremo. Elementos en distintos formatos que nos transmiten la potencia de la luz led domándola mediante sus reguladores de intensidad con los que interactuar, para proporcionarnos una delicada luz ambiental. Aliviando con su presencia ambientes sobrios y recargados, planteando nuevas alternativas, iluminando a la vez que vistiendo.
